FALLING HAIR AND ITCHING SCALP
Entirely Needless—Use Parisian Sage

It Quickly Removes Dandruff Your Head Feels Fine

Now that Parisian Sage can be had at any drug store or toilet counter, it is certainly needless to have thin, brittle, matted hair, stringy or faded hair.

No matter how unsightly the hair, how badly it is falling, or how much dandruff, use Parisian Sage—it is all that is needed. One application removes dandruff, the hair roots are nourished and stimulated to grow new hair, itching scalp and falling hair cease—your head feels fine. Best of all, the hair becomes soft, fluffy, abundant and radiant with life and beauty.

You will be surprised and delighted with Parisian Sage. Try at least one fifty-cent bottle. G. L. Penny will refund your money if you are not satisfied.

Look for the trade mark—"The girl with the auburn hair"—accept no others.

Your Wife's Work

is just as trying and important as your own and perhaps more tedious—but is her strength as great?

Women who are nervous and fretful and easily fatigued promptly gain strength and natural energy by taking Scott's Emulsion after meals because it is essentially nourishment—not a drug that stupefies or alcohol that stimulates—there is pure, rich medical nourishment in every drop which nature appropriates to enrich the blood and rebuild the latent forces of the body.

Probably nothing is more popular with physicians for just such conditions than Scott's Emulsion.

Avoid substitutes called "wines", "extracts" or "active principles"—they are not cod liver oil.

Fire at Harrodsburg
The burning of the Presbyterian parsonage, at Harrodsburg occasioned a heavy loss to the Rev. J. G. Hunter, pastor emeritus, who on leaving the parsonage left his household belongings and library. The most irreparable loss to both the pastors, Drs. McLeod and Hunter, was the destruction of their sermons in manuscript as forty years of sermons by Dr. Hunter and all of Dr. McLeod's were consumed.

CATARRH OF THE THROAT Is Liable to Produce Catarrhal Deafness

CLARENCE BOWMAN.

A Case of Catarrhal Deafness.

Mrs. Wm. Bowman, R. F. D. 1, Coon Rapids, Iowa, writes:

"Some time ago I wrote you about my little boy, Clarence, five years of age. He was troubled with his ears. They were very sensitive to the touch, and he was quite deaf at times. He seemed to be worse after catching cold. I had taken him to doctors, but they did not seem to be able to relieve him, and I was very much afraid he would lose his hearing entirely. He was getting more deaf every day."

"I wrote to you for advice, and you prescribed Peruna. I began giving it to him, and can now say that he is entirely cured. He is now well and hearty and can hear perfectly."

Catarrh Causes Many Diseases.
Many diseases are caused by taking cold. A cold is very likely to settle in the nose, causing nasal catarrh. It may settle in the upper part of the throat, called the nasal pharyngeal space. In this space are two little tubes called eustachian tubes, that lead to the middle ear.

If the catarrh settles in the pharyngeal space it may follow the mucous membrane through the eustachian tubes into the middle ear. If it does it will cause noises in the ear, and later on be sure to cause deafness.

Catarrh of the throat may follow the eustachian tubes up into the middle ear without causing much concern on the part of the patient. The par-

tial loss of hearing is apt to be overlooked. A person may lose half his hearing before he knows it.

For instance, suppose a man can hear his watch four feet from the ear. If he loses his hearing to the extent that he can only hear the tick of his watch two feet from the ear he may not suspect it at all. His hearing is good enough for ordinary purposes. He goes on without the slightest suspicion that he is losing his hearing. He may have ringing in the ear, or cracking and snapping sounds in the ear, or a feeling of pressure in the ear, but he is not aware that he is losing his hearing.

Testing the Hearing.
It is a good thing to test your hearing with a watch. First hold the watch against your ear, then move it gradually away from the ear and see how far away from the watch you can actually hear it tick. Try it on the other side and see if both ears are alike. If you find that you are unable to hear the watch on both sides alike and at a distance of four feet from the ear, you may know that deafness has already begun. You should begin taking Peruna at once. Gargle the throat with cold, strong salt water, as directed in the "Illa of Life," sent free by Peruna Co., Columbus, Ohio. Perstat in this treatment until a cure is effected.

The Best Way to Gargle.
Sometimes catarrh of the nasal pharyngeal space will cause an accumulation of secretions in the throat, that completely fill the space. Unless these secretions are promptly removed by frequent gargling with Peruna may be formed. Once formed the polyp or adenoids, as they are sometimes called, will require a long time with the gargling to remove. Gargling according to the proper method will sometimes remove polyp or adenoids, and no surgical operation is required.

In order to understand exactly what is meant by proper gargling and for a free copy of the "Illa of Life." During the whole course of gargling Peruna must be taken according to directions on the bottle.

People who object to liquid medicines can now obtain Peruna Tablets.

Mrs. Hurt Falls from Train

Mrs. Mary Hurt, of Silver Creek, Madison county, in some unknown manner fell from the L. & N. train at the station at Richmond Wednesday, and was badly injured. She was taken to the Patti A. Clay Infirmary and it will only be a question of a short time until she will be sufficiently recovered to be removed to her home.

Paris Man Dies at Knoxville
Capt. Frank P. Webb, one of the oldest conductors on the Kentucky Central Division of the L. & N. railroad died at Knoxville Monday morning. Capt. Webb was found dead in his room at a hotel. Heart disease is supposed to have been the cause of his death. The body was taken to Paris for burial. He is survived by his wife, formerly Miss Cora Burns, of Nepton, Ky., and a brother of Circuit Clerk F. P. Webb, of Paris. Capt. Webb was well known in this part of the state.

D. D. D. In Hospitals; Standard Skin Cure.

How many hospital patients, suffering from the frightful itch, the raw scorching pain of skin disease, have been comforted to sleep by a soothing fluid washed in by the nurse's hands?

That fluid is the famous D. D. D. prescription for eczema.

THE SUPERVISING NURSE of one of our prominent Catholic institutions (name of nurse and institution on application), writes regarding a patient: "The disease had eaten her eyebrows away. Her nose and lips had become distorted. Since the use of D. D. D. her eyebrows are growing, her nose and face have assumed their natural expression."

How many eczema sufferers are paying their doctors for regular treatment and are being treated with this same soothing, healing fluid?

DR. GEO. T. RICHARDS frankly writes "D. D. D. is superior to anything I have ever found for eczema and soothing, yet a powerful agent."

To do the work, D. D. D. Prescription must be applied according to directions given in the pamphlet around every bottle. Follow these directions—and see!

And it certainly takes away the itch at once—the moment the fluid is applied. The skin is soothed—calmed—so thoroughly refreshed—delightfully cool.

All druggists of standing have the famous specific as well as the efficient D. D. D. Skin Soap.

But we are so confident of the merits of this prescription that we will refund the purchase price of the first full size bottle if it fails to reach your cure. You alone are to judge.
